Through the projects, transnational cooperation is enhanced within the youth field as well as with the stakeholders of related sectors. The projects contribute to strengthening the role and quality of youth work and youth policy in Europe.

Erasmus+ is the European Union's programme for boosting skills and employability through activities organised in the field of education, training, youth, and sport. Youth activities under Erasmus+ aim to improve the key competences, skills and employability of young people, promote young people's active participation in the society, their social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.
